About the Gallery

The Aquarium Gallery and Studios is a collective gallery open to the public. Each month a new artist or group will be selected to use the gallery to display work. Openings will occur on the 2nd Saturday of each month and the show will remain open until the 1st Sunday of the following month, at which point the work must be deinstalled. Artists are given keys to the building, 24/7 access to gallery for installation and creative freedom to execute their vision.

We ask that exhibiting artists be prepared to take sole responsibility for their show. This includes bringing special equipment, like speakers and projectors, assembling your own team of helpers for install/deinstall and coordinating open-hours on the weekends. The Aquarium Gallery will provide bar/bartending at openings (and closings, on request), as well as coordinate facebook events.
